Personal Safety Tips (Part III)

These are several simple safety tips that anyone can follow. Following these tips can reduce the chances of you becoming a victim. Being proactive is better than being reactive.

WHEN AT WORK

- If you are the first to arrive, be observant of surroundings
- Arrive and leave in groups
- Insist on identification of any strangers who ask for confidential information, or want to enter an area restricted to employees
- All deliveries should be documented and identification should be checked
- Keep valuables with you or locked in a secure area
- Keep small amounts of cash in registers
- If you bank for your business, vary your route and times for transporting deposits
- Don't give out personal information about your boss or co-workers
- Avoid telling clients that your boss or co-workers are out of town
- Don't advertise your social life or vacation plans to strangers
- Be cautious when using restrooms, stairs, and elevators that are in isolated areas

VACATION:

- Don't cancel newspaper, garbage collection, milk, or mail when on vacation
- Have relatives, friends, or neighbors collect those items and deposit trash for you to give the residence a lived-in appearance.
